

## Meeting with farmers of Fernana platform

A meeting with farmers of Fernana platform has been organized on Tuesday January 13, 2015 at INGC. This meeting has been requested by the socio-economic team of CANA project in order to record the farmers' point of view regarding the adoption of Conservation agriculture (CA) in their region. This kind of information is highly required by ADOPT model to estimate adoption rate in Fernana platform. A survey has been discussed and filled by farmers by giving their own opinion towards conservation agriculture in their farms and in the region. The opportunity has been taken to discuss with farmers field activities' progress and the state of development and growth of their crops.
